

**Tudor Pickering Holt's Energy Thoughts (November 28, 2008)**  
***Reader Thoughts***

**You write the Friday note! – reader thoughts**

Key disclaimer – we didn't write, we didn't censor them. We put them in here just like they were sent to us. Any stock discussion below (long, short or otherwise) is not endorsed or dismissed by TPH – in other words, it could be right, it could be wrong – caveat emptor! Some interesting stuff to chew on, that's for sure.

- **Exciting – While not a stock – your members should know about YPE ([www.ypenergy.org](http://www.ypenergy.org)) – with chapters in Houston, New York, and 18 other cities and over 5,000 members, it's the most exciting non-profit organization for young leaders in the oil patch. *Private equity***
